

Bach No: 2018-2019/Keepsake/B14

A report about the Short-Term Training Program on “Beginners/Fresher Welding Training Course” at the GTU’s Keepsake Welding research and skill development center at the at L.D College Engineering.

- **Course Name:** Beginners/Fresher Welding Training Course
- **Trade Name** Fabrication
- **Duration:** 22/03/2018 to 28/03/2018
- **Venue:** Keepsake Welding research and skill development center at the at L.D College Engineering
- **No of participant:** 25

GTU has established Skill Development Center in Welding Sector at L.D College Engineering. To develop such center Keepsake Engineering Consultancy Pvt.Ltd (Industry Partner), CED and GTU (Host Institute) work jointly.

During the 22/03/2018 to 28/03/2018, “**Beginners/Fresher Welding Training Course**” tanning was arranged under the Keepsake Welding Research & Skill Development Centre at the L.D College Engineering.

Objective of the Tanning Program:

During the one-year duration of “Welder (Fabrication & Fitting)” trade, a candidate is trained on Professional Skill, Professional Knowledge, Engineering Drawing, Workshop Science & Calculation and Employability Skill related to job role. In addition to this, a candidate is entrusted to undertake project work, extracurricular activities and on-the-job training to build up confidence.

Outcome of the training Program:

The trainee learns about elementary first aid, firefighting, environment regulation and housekeeping etc. The practical part starts with basic welding work on stainless steel, cast iron, aluminum and brass viz. cutting of pipes, brazing, arc gauging etc. Cutting of MS sheets & plates in different angles as per drawing, related to structural and pressure parts. Joining of pipes of different diameter and angles by gas welding, thread cutting on different types of pipes & fitting accessories and carry out drilling machine operations to steel structures for fabrication of structures. On completion of each welding job the trainees will also evaluate their jobs by visual inspection and identify the defects for further correction/improvement.

They learn to adapt precautionary measures such as preheating; maintaining inter-pass temperature and post weld heat treatment for Welding Alloy steel, Cast Iron etc. The Workshop calculation taught will help them to plan and cut the required jobs economically without wasting the material and also used in estimating the Electrodes, filler metals etc. The Workshop Science taught will help them to understand the materials and properties, effect of alloying elements etc. Engineering Drawing taught will be applied while reading the job drawings and will be useful in understanding the location, type and size of weld to be carried out.
